## Subject index to volume 51

Agent systems	113	Infrastructure	139
AHP	13	Injection mold design	51
Approximate reasoning	269	Intangible asset	197
Approximation of functions	269	Intelligent manufacturing systems	211
Associative features	51		
		Knowledge engineering	51
Breeding environment	139	Knowledge management	127, 197
Business process reengineering	89	Knowledge representation	89
Business processes	257		
Business systems	127	Layer extrusion	237
		LMI	1
CAD/CAM	51	Logical deduction	269
CAS/CAD	73		
CIM	13	Management	165
Complexity reduction	281	Manufacturing	185, 327
Components-based software design	73	Manufacturing companies	31
Computer Aided Process Planning	41	Model integration	257
Computer integrated manufacturing	41		
Conceptual modeling	257	Naturally ventilated buildings	299
Cybersphere	31	Non-linear systems	73
3D visualization technologies	89	Open hypermedia	327
Design automation	51		
Design rationale	197	Parallel distributed compensation controller design	281
Distributed control systems	225	Performance metrics	225
		Pneumatic actuators	73
Enterprise design	185	Process planning	41
Enterprise integration	113	Product modelling	197
Enterprise model set	257	Production scheduling	41
Enterprise modeling	185, 257		
Enterprise operation	185	Self-federation	113
Enterprise resource planning	165	Self-organisation	185
Extended/virtual enterprise	165	Sequencing in process planning	41
		Shop floor control	211
Features in process planning	41	Simulation and visualization	237
Fuzzy control	269	SME	165
Fuzzy control system	1	Soft modeling	113
Fuzzy logic	269	Supply chain	165
Fuzzy logic control	299	Synthetic evaluation	13
Fuzzy sets	13	System modelling	73
Global design	197	Takagi–Sugeno fuzzy inference model	281
Group decision	13	Thermal comfort	299
Higher order singular value decomposition	281	User evaluation	327
Holonic manufacturing systems	211	User interface	327

Virtual enterprise	113, 127, 139	Virtual reality	31, 89
Virtual enterprise modelling	197	Visual computing	89
Virtual organization	139		
Virtual prototyping	237	WWW	165
